

ATTENTION: SMALL VOLUME KIWIFRUIT HANDLERS!

REPORTING EZ!

If you handle 10,000 tray equivalents or less of California kiwifruit per season, you could qualify for "Reporting EZ". To qualify, you must return the attached *Reporting EZ Application Form* to the KAC no later than November 2, 2009.

Reporting EZ means you will not be required to file any KISS reports, no Year End Sales report and possibly no Final Packout report. Also, you will only have to report your shipments twice during the season - one due January 5th and the final one due the 5th of the following month when your last shipment occurred. You will only receive two assessment invoices during the season, billing for kiwifruit reported on each of your shipment reports. It may sound complicated but it is real EZ! Below is a Summary of the Reporting EZ requirements:

SUMMARY OF REPORTING EZ DUE DATES

<u>Due</u>	<u>Report</u>
November 2	<i>Reporting EZ Application Form</i>
5th of January	<i>Shipment Report</i> (includes shipments from harvest through December 31)
5th of next month after last shipment	<i>Shipment Report</i> (includes shipments from January 1 through end of season)
July 1 or 30 days from last shipment, whichever is earlier	<i>Final Packout Report</i> (only necessary if you handled fruit other than your own)

Please call the KAC office at (916) 441-0678 if you have any questions.

REPORTING EZ APPLICATION FORM

DUE BY NOVEMBER 2, 2009

Do you plan to handle 10,000 tray equivalents or less of California kiwifruit this season?
_____Yes _____No (If you answered No, you do not qualify)

What is the estimated tray equivalents that you intend to handle? _____ tray equiv.*

Do you plan to only handle fruit that you have grown?
_____Yes _____No (If you answered No, you must file a Final Packout Report at the end of the season)

*1 tray equiv. = 7 pounds

You will be notified by our office if you qualify for Reporting EZ. Anyone who fails to meet the Reporting EZ due dates will no longer qualify for the Reporting EZ and will have to abide by the entire reporting requirements of those that handle more than 10,000 tray equivalents.
